SMARTERX

Prerequisite: Scope

- What question are you trying to answer?

Copyright 2026 SmarterX Ventures, LLC. All rights reserved.

SMARTERX

Prerequisite: Scope

Weak:

"I need to research Competitor X."

Strong:

"I need to know whether Competitor X is moving upstream and whether that should change our positioning."

Download the prompt! Transform a broad research topic into potential research questions.

SMARTERX

Prerequisite: Scope

I am researching [the topic] in order to answer [the specific question(s)].

Copyright 2026 SmarterX Ventures, LLC. All rights reserved.

SMARTERX

Prerequisite: Scope

Buyer research → Which problems create the greatest friction for shoppers resembling our ICP, and which appear important enough to influence retailer choice or loyalty?

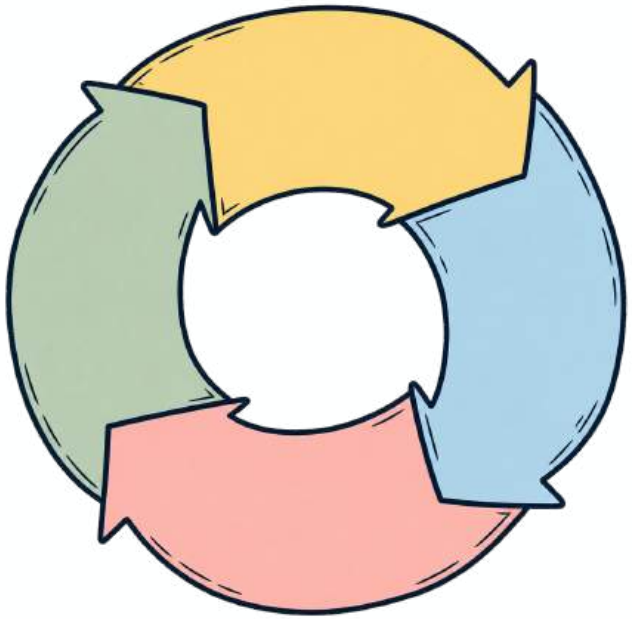

Competitive intelligence → Is [competitor] making strategic moves that increase overlap with our intended customer and positioning, and if so, which elements of our go-to-market strategy should change?

Content research → Which high-value tensions, needs, or aspirations of our buyer are underrepresented in competitors' social content, creating a credible content territory we could own?

URBAN BASKET | BUYER PERSONA

The Urban Optimizer

Primary omnichannel household shopper

MAYA THOMPSON Age 38 • Chicago suburbs

Profile snapshot

- Household: Married, two children (ages 6 and 9)
- Occupation: Senior HR manager
- Household income: ~$145K
- Shopping frequency: 2–3 Urban Basket trips/orders per week
- Typical channels: App + curbside pickup; in-store for discovery and larger trips

Goals & priorities

- Keep the household stocked without spending unnecessary time on errands.
- Balance quality with value; willing to pay more when the difference feels meaningful.
- Consolidate trips across groceries, household goods, apparel, and occasional electronics.
- Use digital tools to make repeat purchases fast and predictable.

Pain points

- Out-of-stocks or substitutions that create extra stops elsewhere.
- Promotions that feel complicated or require too much effort to redeem.
- Inconsistent product quality across private-label categories.
- Delivery windows or pickup delays that disrupt a tightly scheduled week.

Buying behaviors

- Starts in the app with a saved list and past purchases.
- Compares Urban Basket prices selectively, especially on staples and electronics.
- Uses curbside for routine replenishment; shops in-store when she wants inspiration.
- Responds strongly to personalized offers tied to products she already buys.

What wins her loyalty

- Reliable availability and accurate fulfillment.
- A clear "good / better / best" assortment without overwhelming choice.
- Private-label products that feel trustworthy, modern, and worth switching for.
- Rewards that are easy to understand and visibly save her money or time.

"I want one place that makes the weekly routine easier — without feeling like I have to compromise on quality."

Implication for Urban Basket

Win Maya by combining Target-like inspiration with the reliability and convenience of a true household hub. The position should emphasize effortless omnichannel shopping, trusted quality, and smart value — not lowest price alone.

Fictional persona for illustrative purposes

e Standards

navigate, consistent across formats, and friendly to AI tools. Excel workbooks
and field names. Word and PowerPoint artifacts should cite source workbook

Naming Convention	Example
UB_<Domain>_<AssetName>_<FY/Period>_v#.#.xlsx	UB_Finance_Annual_Operating_Plan_FY26_v1.0.xlsx
UB_<Domain>_<DocumentName>_<FY/Period>_v#.#.docx	UB_Data_Enterprise_Data_Standards_Guide_v1.0.docx
UB_<Domain>_<DeckName>_<FY/Period>_v#.#.pptx	UB_Executive_Q2_Business_Review_FY25_v1.0.pptx
Urban_Basket_<Domain>_<Release>	Urban_Basket_Finance_FY2026_Release_1

k Structure

Recommended Tab Name	Purpose
README	Purpose, owner, source, date, version, caveats.
DATA_DICTIONARY	Field definitions for workbook-specific field
CONTROL_TOTALS	Tie-outs, row counts, checks, and validation results.
MD_<Domain>	Canonical or referenced master data extracts
ASSUMPTIONS	Scenario drivers and calculation inputs.
CALC_<Topic>	Intermediate model logic.
REPORT_<Topic>	User-facing report or dashboard.
CHANGE_LOG	Version history and changes.

Good Example	Avoid
Store_ID, Vendor_ID, FY2026_Plan	Store ID#, vendor id, FY 26 Plan
Cost_Center_ID	Cost Center Number
Open_Date, Close_Date	When opened
Annual_Spend_USD	Spend
Distribution_Center_ID	DC if not documented
Private_Label_Flag	Yes/No, TRUE/FALSE mixed

rkbook explaining purpose, period, owner, and caveats.
merged header cells in raw data tabs.
alculations, and reports.
al.
l tool may need to interpret the workbook.

- Document formulas and unusual business rules in notes or the data dictionary.

14. Data Quality, Controls, and Change Management

Even fictional data should pass realistic enterprise controls. This improves credibility and ensures downstream AI exercises do not fail because of avoidable inconsistencies.

Control Type	Control Description	Example
Uniqueness	Primary keys must be unique within each domain.	No duplicate Store_ID in Store Master.

Urban Basket Customer Service Call

Illustrative transcript | Customer issue: damaged grocery delivery and missing item

CALL DATE	CHANNEL	CASE ID
September 17, 2026	Phone	UB-482731
CUSTOMER	**REP**	**DURATION**
Maya Chen	Jordan Ellis	6:42 (excerpt)

Transcript

Jordan (Urban Basket): Thank you for calling Urban Basket Customer Care. This is Jordan. How can I help today?

Maya (Customer): Hi. I had a same-day grocery delivery this morning, and part of the order arrived damaged. A carton of eggs was crushed and leaked onto a few other items. I'm also missing the coffee I ordered.

Jordan: I'm sorry about that. I can take care of both issues. Let me pull up the order. Can you confirm the email address or phone number on your Urban Basket account?

Maya: Sure, it's the phone number ending in 4421.

Jordan: Thanks. I have the order here. I see the eggs and the UB Fresh dark roast coffee. Besides the eggs, were any of the other items unusable because of the spill?

Maya: The bread packaging got wet, so I threw that out too. Everything else was okay after I wiped it down.

Jordan: Understood. I can refund the eggs and bread immediately. For the missing coffee, I can either refund it or schedule a replacement delivery today at no charge.

Maya: A replacement would be great. I actually need it for tomorrow morning.

Jordan: Absolutely. I'm seeing a delivery window between 4:00 and 6:00 p.m. today. I can send the coffee then. I'll also refund $8.47 for the eggs and bread to your original payment method.

Maya: That works. Do I need to upload a photo or anything?

Jordan: Not for this order. I've documented the damage on the case. You'll receive an email confirming the refund and another notification when the replacement is on the way.

Maya: Okay, thank you. I was mostly frustrated because this is the second delivery issue I've had this month.

Jordan: I understand. I can see a prior case from August involving a missing household item. I'm adding that context here so we have a record of the repeat issue. I can also add a $10 courtesy credit to your Urban Basket account for a future order.

Maya: I appreciate that.

Jordan: Of course. Before we wrap up, is there anything else from today's order that I can help with?

Maya: No, that's it.

Jordan: Great. The refund is submitted, the replacement coffee is scheduled for this afternoon, and the $10 credit has been added to your account. Thanks for shopping with Urban Basket, Maya.

2026 State of AI for Business Report

Presented by SmarterX

The Year the Gap Became the Story

A letter from Paul Roetzer, CEO of SmarterX

This is the sixth year we've published our annual State of AI research, and it's the first year I'm worried about a different kind of problem.

For five years, the headline was adoption. Were people using AI? Were organizations buying tools? Were leaders taking it seriously? And the trajectory, while uneven, moved in one direction: forward. More usage. More awareness. More confidence. More tools deployed.

That story hasn't reversed. More than half of this year's 2,109 respondents say they're personally in the Integration or Transformation phases of AI adoption — embedding it into their workflows or fundamentally reimagining how they work. Seventy-five percent say AI is critically or very important to their success in the next twelve months. Confidence in evaluating AI technology continues to climb.

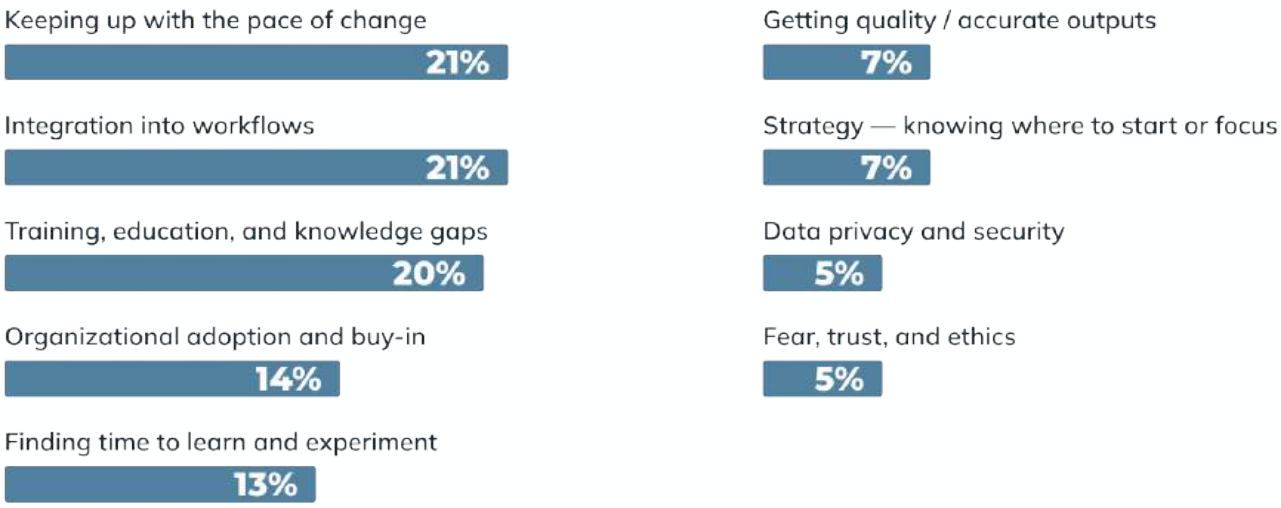

But here's what keeps me up at night: the individuals are outrunning their organizations. And the organizations don't seem to know it.

Fifty-three percent of respondents say they're personally in the Integration or Transformation phases of AI. But only 25% say their organization has reached the Scaling phase. Sixty-two percent of the most advanced individual adopters — people who have already embedded AI into how they work — report that their organization is still only in Piloting or Understanding. They're ready. Their companies are not.

lifecycle, handling portfolio construction, dynamic rebalancing, and tax-loss harvesting with minimal human intervention 17 18 .
Meeting Automation: AI note-taking platforms (such as Morgan Stanley's Debrief, Jump, and Zocks) listen to client meetings to instantly generate compliant notes, surface action items, and draft follow-up emails, saving advisors significant time 19 20 .
4. Customer Service and Client Engagement
Conversational AI: AI-powered chatbots and virtual assistants, like Bank of America's Erica or Plum, manage routine inquiries such as balance checks, password resets, and incremental savings, freeing human agents for escalated issues 21 .
Hyper-Personalization: AI analyzes client data and spending habits to deliver proactive, personalized recommendations at scale, predicting customer needs before they arise 24 25 .
5. IT and Software Engineering
Legacy System Modernization: Financial institutions often rely on aging, fragmented IT infrastructures. Generative AI is now being used to accelerate code generation, refactor legacy code bases, automate security scanning, and streamline software testing 26 .

Worked for 32s >

For your criteria—noise-canceling earbuds under $300, primarily for music and exercise—I'd narrow Consumer Reports' current field to three. My pick for you is the AirPods Pro 3, with the Sony WF-1000XM6 as the choice if sound quality matters more than workout fit.

CR's 2026 workout earbud roundup specifically includes **AirPods Pro 3, Beats Fit Pro, and Sony WF-1000XM6**, so these aren't just generally good earbuds; CR considers all three credible exercise options.

CR Consumer Reports

CR Consumer Reports

8 Best Workout Earbuds of 2026, Lab-Tested and Reviewed - Consumer Reports

April 9, 2026

		ony WF-1000XM6	Beats Fit Pro
		xcellent	Very good
		Excellent	**Excellent**
Workout fit	Strong all-around	Secure, but some fit concern	**Best/most secure**
Water resistance	**IP57**	IPX4	IPX4
ANC battery	**8 hrs**	**8 hrs**	6 hrs
Current price	~$199–$249	~$298	~$125–$130
Best for	**Overall balance**	**Music/sound quality**	**Exercise + value**

Scheduled task (ChatGPT)

URBAN BASKET / LEADERSHIP BRIEF

Target competitive intelligence

United States • September 21 2026 • Initial baseline

For the CMO, COO, CFO and Executive Steering Committee

Executive takeaway

Prepare a focused loyalty and value response ahead of Target's October promotion. Review delivery economics and store readiness before committing to an offer.

Target's September 15 Deal Days announcement creates a near-term planning deadline. Circle 360 pricing and benefits establish the comparison baseline; they are current observations, not verified changes.

What leadership needs to know

Priority	Competitive signal	Leadership implication
High	Circle 360 combines delivery, shipping and member perks.	Compare total household value and cost to serve by eligibility tier.
High	Deal Days runs October 6–7, with select early access October 5.	Prepare a narrow family and home basket response before September 27.
Medium–High	Target describes payroll, training and store-tool investments.	Validate inventory and fulfillment capacity before increasing demand.

Decision requested

Commission a bounded offer comparison and readiness review. This baseline does not support a broad price match, a budget commitment or a projected return.

Suggested owner	Next step
CMO and Merchandising	Prepare the basket comparison and customer message.
COO	Check stock, pickup punctuality and service constraints.
CFO and Loyalty	Model membership tiers, delivery costs and promotion margin.

Research status: Completed scoped public-source baseline. Public browser inspection succeeded; customer eligibility and local delivery availability were not tested.

Urban Basket is a fictional demo company. Target findings are sourced public information.
